

Hot Tip #26

ITS' Client Referral Program

Refer a business associate and receive a credit on your phone bill!

In today's economic times, small business owners are constantly looking for ways to receive the best possible product or service, while keeping their overhead expenditures down.

Telecommunications is often an area that can be manipulated to ensure the greatest value has been added to the daily operations of a business, while maintaining costs. The next time that a friend or family member asks you for advice about this area of their business, consider recommending ITS as their complete communications provider and experience these benefits...

Refer a Friend and:

- Receive a credit on your phone bill for the amount of the referred customer's first full month bill (less any set-up fees and taxes) for every referral that becomes a *new client.
- Be confident that the clients you refer will receive the same quality telecommunications and/or networking services that you've experienced.

It's an easy way to save money on your bill while simultaneously helping your friends, family and business associates, who own or manage a business, to improve their communications system. So refer a client today!

Further questions about our Client Referral program? Please contact a client relations representative at 800.876.4ITS (4487) or visit <http://www.itstelecom.com/overview.htm> for more information.

*New Client, for the purpose of this program, is defined as a new client who signs up for one of the eligible products or services for a minimum two year term.

ITS realizes that these days all businesses are looking for ways to save money and improve efficiencies. In response to this, ITS has put together this Hot Tips mailing with the goal of providing our customers tips on how to save money or improve efficiencies in their business. You can look forward to a new Hot Tip in your mailbox every month.

At ITS, we truly value our customers and are committed to helping you with your communications and networking solutions by being your telemangement expert so that you can focus on what you do best and not worry about technology getting in the way. If you have ideas you would like us to explore further or would just like to send us feedback, please send an email to HotTips@its-omni.com.
